Application No. 10/032,228
Amendment A

Amendments To The Specification

Please replace the paragraph beginning on page 5, line 16 with the following amended paragraph:

Wireless modules 110a-n and 110x are any devices that allow a conventional computing device to communicate with other wireless modules 110 or wireless devices 10, 20 using a method embodiment of the present invention, as described in the claims below. The host device 15 interacts with the wireless network through wireless module 110. The wireless module 110 sends data received from the host 15 to wireless peripheral devices 20 and passes on data received from wireless peripheral devices 20 through the network to the host 15.
